New at the EC: ECtropy up! weekends

Today we are starting with a new concept of special work'n'joy weekends called *ECtropy up!*:

"Ectropy - a measure of the tendency of a dynamical system to do useful work and grow more organized."

[Wikipedia](#)

The aim is making the EC facilities nicer, cleaner, more useful and organized and save some money by reusing or selling unused stuff. And of course, we won't forget to meditate and have fun. [Find out more & check out the program of the first ECtropy up! here >](#)

Upcoming events

[Key people meeting](#)

Jun 26 to Jun 27 (all day)

What is an EC key person? These people are the living links between the EC and our home countries and regions. They carry the transmission of what the Europe Center as a place and an idea means. They are volunteers, people who feel a strong connection with the EC and have the surplus to organise activities and the skills to share information. This weekend will mainly focus on how the different countries can practically contribute here and also on how to carry the EC vision into our different countries and centers.

[3rd Classical Music Summer Matinée](#)

Jul 4, starts at 11:00

To conclude the statue exhibition, a third open air classical concert will be held at Gut Hochreute (that's our address) on July 4 at 11am. As in previous years, our guest singers and musicians will give virtuoso performances using the wonderful acoustics of the arcade.

[EC Summer Course building up phase weekends](#)

Jul 10 to Jul 11 (all day)

Starting on the weekend of July 10-11, 2010, friends from many countries will come together and change our landscape again from rolling green hills to the summer course village, working 4 weekends in a row (Jul 10-11, 17-18, 24-25 & Jul 31-Aug 1). Come & join in!

Final call for products for the Summer Course [World's best shop](#)

Does your country, center or sangha produce something other friends would appreciate? Something practical, healthy, or just fun?

Let us know! We are still looking for products for the EC World's best shop at the summer course. Please contact us at worldsbest@europe-center.org.

Brains & skills (wishlist)

There are not only materialistic wishes on our [EC wishlist](#) but also requests for experts the Europe Center looks for for special projects and missions.

[Experienced metal worker](#)

Our Site development team is looking for an experienced metal worker who could come, design and weld a new fire staircase for the Diamond Room or so-called "big gompa". [Details >](#)

[Windows-project supervisor](#)

We have a great wish for this year - to renovate all the old windows in the main villa. To realize this project, we need a manager who will get a transmission for the work from our chief restorer Beate and then supervise helpers during the whole project. You do not have to be a joiner / carpenter for this work - general manual skills, some feeling for restoration, time and enthusiasm is all you need. [Details >](#)
